

OHIO'S NATURAL GAS AND OIL EDUCATION AND PUBLIC OUTREACH PROGRAM

**OHIO
NATURAL
ENERGY**
I N S T I T U T E

The Ohio Natural Energy Institute is an organization of professionals who educate people about the essential energy that makes life better, specifically focusing on natural gas and oil production. In the community and in classrooms, we provide trusted, factual information through teacher workshops, first responder training, guest speaker programs, and more. Engage with us via OhioNaturalEnergy.org, like us on Facebook and follow us on Twitter, Instagram and LinkedIn.

SIGNATURE PROGRAMS

The Ohio Natural Energy Institute organizes year-round events and programs to educate the public and stakeholders on the natural gas and oil industry. A few of our signature programs include:

Public Education

The Ohio Natural Energy Institute has established itself as a thought leader and trusted source of information. A key mission is informing and educating Ohioans about the impact of natural gas and oil in the state. This is done in a variety of ways, including, public speaking events, and meetings with community leaders such as elected officials, businesses, and economic development entities. The organization also communicates externally via social media channels and is a go-to-source for media outlets across Ohio and the nation.

Essential Ohio Energy Campaign

This award-winning campaign has reached over 32.5 million impressions since launching. The ads highlight the many ways natural gas and oil is essential in our daily lives beyond transportation and electric generation.

Teacher Workshops

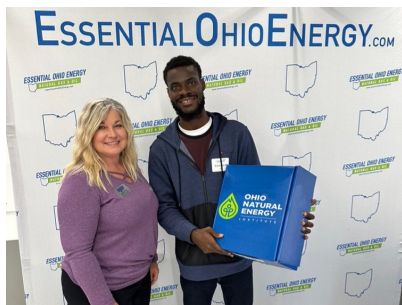

STEM & geology teacher workshops provide educators with factual knowledge about the natural gas and oil industry, along with the history, science, and geology behind it. Career connections are incorporated into the curriculums and lessons to educate students about opportunities that are available within the natural gas and oil industry.

Scholarship Program

Every year, scholarships are provided to promising students with an interest in the natural gas and oil industry. More than half a million dollars has been awarded since the scholarship program's inception.

Firefighter Training

The first of its kind in the nation, this program has provided training to thousands of firefighters and first responders. It is designed to teach common practices, references and standards used by the fire service and the gas and oil industry.
